THE SUCCESS STORE

Women entering or re-entering the workforce often lack the appropriate clothing to wear to interviews and work. The Success Store addresses this barrier to employment and provides incentive to keep participants engaged and motivated throughout the course. Participants earn points used to "purchase" items through attendance, class involvement, and punctuality. The Success Store is also a resource for other social service agencies in Tarrant County. Through a voucher system, agencies can refer their clients to the Success Store to receive two professional outfits and a pair of shoes for interviews and work.
